

HAKITEC® 750
Temporary roofs, shelters and buildings

HAKISPAN 750
Mobile and stationary access platforms

Span Large Areas
Protect Assets and Equipment
Stationary and Mobile Solutions
Ensure Safety and Productivity

Safeguard assets with the HAKITEC 750 protection systems.

Protect assets and equipment. Maintain continued productivity. Stay on schedule regardless of weather.

Easy-to-install, mobile or stationary

When you need to protect assets, equipment and structures or create a barrier from the weather, HAKI temporary roof systems, buildings and shelters provide the ideal solution. Safe, quick and easy to erect using modular components, the HAKITEC 750 can be designed to cover large, wide, uninterrupted spans and fit almost any shape and size, including pitched and polygonal structures.

Efficient and reliable, applications include: commercial construction, industrial jobsites, storage, warehousing, and shipbuilding or repair.

Safway Group is the primary distributor of HAKI® products in North America and offers the HAKITEC 750 protection systems and HAKISPAN 750 for purchase or lease.

Safway Group and HAKI Products: It's THE SMART WAY™ to safeguard assets and span large areas.

Engineering, Training and Support

Safway is dedicated to providing the engineering support, training and expertise to optimize the safe and productive use and application of the HAKITEC 750 protection systems and HAKISPAN 750 – in addition to all other Safway products and solutions. With the largest Research, Development and Engineering Department in the industry, Safway can design and plan every aspect of your project.

Supported by state-of-the-art 3-D Computer-Aided Design (CAD) and structural analysis software, our licensed civil, structural and mechanical engineers can develop custom, innovative solutions to meet the unique needs of any project or situation – often offering significant overall savings in labor costs, equipment and time.

Project Management Ensures High Performance

Once you're ready to begin work on site, you can rely on Safway to

Span large areas with HAKISPAN 750 mobile or stationary platforms.

Provide access over vast spaces. Allow facilities to remain open and in use. Enhance safety.

Light-weight, yet strong

When you need to span large areas – especially immense, wide spaces above facilities that need to remain open and in use – the HAKISPAN 750 mobile or stationary platforms provide the perfect solution. Lightweight aluminum trusses provide great strength in relation to weight, and modular components make assembly and installation quick, easy and above all safe.

Applications include: commercial construction and refurbishment, from airports and churches to theatres and leisure facilities – as well as industrial jobsites.

provide experienced, industry-specific project management and field supervision. From pre-job conferences and on-site management to delivery of products and services, Safway's project managers can oversee your entire job. We also provide the Safway Tracking System (STS), the most robust project management tool in the industry, which captures and generates real-time data about your project's equipment, labor and productivity, delivering up-to-the-minute project reports right on your computer.

Award-winning Safety

And our bottom line? Safety. It's our number one value. Safway believes every worker has the right to return home safe at the end of each day. We are committed to developing a safe culture along with a comprehensive system to support continuous improvement in this critical area. Safway has an outstanding track record in safety, highlighted by "EHS Today" magazine, when we were named one of America's safest companies. We can provide on-site expertise to assist in field management, including

assurance of OSHA, Cal/OSHA and OH&S compliance. In addition, we are the only company with our own Training University and are able to provide Site Safety Professionals, who receive support from our in-house safety team.

The Safway Group Advantage

The versatility of our products and services, is only part of the Safway Group advantage. By optimizing the resources and drawing on the experience and talent available through the various companies that are part of the Safway Group, we can offer superior expertise, from access to industrial services. Through our branch network, which offers more inventory

and locations throughout North America than any other access company, we can efficiently deliver products, services, local labor and expertise, when and where you need them. Since 1936 Safway has been a leader in the industry. We look forward to partnering with you on your next project.

Through **SMART Safety** practices, **SMART Planning** methodologies, **SMART Process** discipline and **SMART Technology** advancements, our **SMART People** come up with ideas every day to deliver **THE SMART WAY™**. The result? Safe, productive work sites – and the lowest total installed cost.
