

BREADTH OF SERVICE + DEPTH OF EXPERTISE
THE SMART WAY® TO WORK

Mobley **SAFWAY**®

Commercial Construction Solutions

For new
construction,
restoration and
maintenance

SAFWAY® Group

Largest inventory. Local labor, products and expertise.

New buildings. Historical renovations. Skyscrapers. With the most complete range of products and customized services available, we will help you reach new heights and increase productivity – THE SMART WAY®.

“This was a monstrous engineering project. We worked with Safway to develop a (solution) that maximized deck space and minimized weight. Dates and deadlines were critical because we had a linear schedule that impacted multiple trades. This is probably one of the largest scaffold projects ever undertaken in the area, and just by getting together, putting the right minds and the right people around the table, we were able to execute a very safe and workable project.”

- Consigli Construction Company

More Products & Services

Whether you're a construction firm renovating a high-rise in Washington, D.C. or a painter who needs a rolling tower in Granite Falls, Washington, we have the best and safest access and industrial service solution for your project. An industry leader since 1936, our comprehensive products and services are designed to improve efficiency and safety on every level, from labor to productivity to overall cost. And we also have the largest equipment inventory in the industry, available for purchase or rental.

Engineered Better

To optimize the use of our equipment, we have an

experienced team of engineers ready to design and plan your project. Using state-of-the-art 3-D Computer-Aided Design (CAD) and structural analysis software, our licensed civil, structural and mechanical engineers can develop custom, innovative solutions to meet the unique needs of any project or situation – often offering both improved safety and significant overall savings.

Ensuring Performance

From pre-job conferences and on-site management, to delivery of products and services, to dismantle, our project managers and field supervisors can oversee your entire job, with hands-on direction and oversight. In addition, the Safway Tracking System (STS), the most robust

Through **SMART Safety, Innovation, Planning, Process and Expertise**, our people come up with ideas everyday — **THE SMART WAY** — by sharing knowledge and resources. It's who we are. It's how we work. The result? Safe, productive worksites and the lowest total installed cost.

Madison Square Garden - New York, NY

project management tool in the industry, captures and generates real-time data about your project's equipment, labor and productivity, delivering up-to-the-minute reports directly to your computer.

Award-winning Safety

Our company has an outstanding track record in safety and has received industry recognition and numerous rewards. We believe that safety drives efficiency and productivity, and that the safest company is also going to provide the best quality and performance at the lowest total installed cost. The equation we like to use is **SAFETY + EFFICIENCY = PERFORMANCE + PRODUCTIVITY**. We are committed to developing a safe culture along

with a comprehensive system to support continuous improvement in this critical area.

Industrial Services

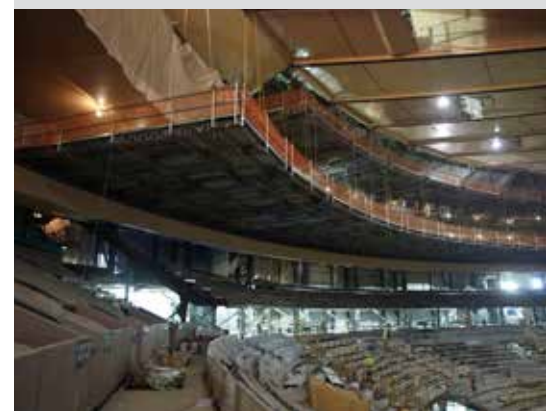

In addition to best-in-class access and scaffold solutions, we provide comprehensive insulation services, fireproofing and coatings installed by the most experienced craftspeople in the industry.

Everything You Need

Plus with more than 114 locations in the U.S. and Canada and a growing system of distributors worldwide, you can be assured that you will have whatever products and services you need – including local expertise and labor – when and where you need it.

"Safway's capabilities make Safway a valuable partner... They deliver the right equipment, and they either provide a skilled set-up crew or they train our crews in the right way to use the products safely. We've used Safway in the past, and we'll absolutely use them again in the future."

Superior Products

Systems™ Scaffold – One of the simplest, most dynamic scaffold products ever developed. Can be configured to fit almost any type of structure, inside and out.

Sectional Scaffold – Using quality-constructed steel tubing, sectional is one of the strongest, most dependable scaffolds in the industry.

Tube & Clamp Scaffold – Easy to assemble and adaptable to nearly all types of projects. Quality steel construction.

SafLock™ System – Our Canadian branches offer SafLock System Scaffolding for efficient, cost-effective erection.

Personnel & Material Hoists – Designed for high-rise applications, hoists have lifting speeds ranging up to 298 feet per minute and can transport as much as 8,000 pounds vertically. A variety of configurations (including dual car capability on one fixed mast) and wide-opening gates ease the handling of large, heavy objects.

Transport Platforms – Ideal for structures up to 656-feet high, transport platforms enable the movement of crews and material, with lifting speeds of 40 feet per minute. Variety of configurations and wide-opening gates. Eases the handling of any onsite materials.

Mast Climbers – For all building façade work, mast climbers can be configured to efficiently transport crews, materials and tools. Lifting speeds of 39 feet per minute ensure timely vertical access to heights up to 550 feet, with lifting capability of up to 10,000 pounds.

SafRise® Climber – Increases efficiency with safe, vertical access at the highest speed-to-capacity. Lifting speed of 30 feet per minute

and a rated capacity of 10,800 pounds. Modular design with 10-foot, 5-foot, or 2-foot-6-inch sections. Unique emergency descent overspeed brake.

Swing Stages – Highly adaptable and easy to use, swing stages provide solutions for many hard-to-reach spaces.

SafScan™ HD Laser Surveying – Delivers precise three-dimensional (3D) images of existing conditions at any commercial site, bridge, plant or facility.

QuikDeck® – Modular suspended access system can be configured to virtually any size and shape and offers safe, factory-floor working conditions for material movement and multiple trades.

QuikShield® – A low-cost, rental suspended access product, QuikShield is stable and easy to assemble, with plywood decking in steel frames.

HAKI® Trusses & Protection Systems – Safway is the primary North American supplier of HAKI trusses, designed to span large areas, and HAKI weather protection systems.

Shoring – MegaShore, Panel Deck and Drop Deck Support Systems provide safe, efficient concrete construction.
