# Offshore & Shipbuilding Solutions

## Access, Insulation & Coatings

**For Rigs, Platforms,  
Ships and Shipyards**

**SAFWAY®** Group

**Tight budgets. Critical deadlines. Demanding service requirements. In a shipyard or an offshore environment, you need an experienced and knowledgeable partner like Safway. Let us combine our expertise in access, fireproofing, insulation and coatings and work with you – THE SMART WAY – to develop high-performance multiservice solutions that will increase your project’s overall safety and productivity.**

### **Safety – Our Core Value**

At Safway, every job starts with safety – because safety is our number one value. We believe our first and foremost responsibility is protecting our workers, along with anyone else working with and around our products and services. This is why we have received numerous awards and recognition for our safety performance, including the EHS Today Award for “America’s Safest Company.”

Safway is also dedicated to maintaining and continuously improving our safety performance – setting the standard in our industry. We are the only company in the industry with our own Training University. In addition to our own staff, we have trained over 40,000 customers, including Occupational Safety and Health Administration (OSHA) employees. Task, site, environmental, compliance and best practice training is ongoing, and Safway conducts training as part of every new-hire orientation as well. We also established 10 Life-Saving Rules and a STOP WORK policy to ensure that every Safway

employee understands that they have the authority to intervene and stop work whenever they think an unsafe condition may exist.

In short, Safway is committed to evaluating the effectiveness of our safety practices and continuing to make improvements to keep our employees and customers safe. It’s in our name, and it’s our bottom line.

### **Access Without Excess**

Safway’s approach to any access project begins – *The Smart Way* – with designated planners, who provide hands-on direction based on years of experience in the offshore and shipbuilding industry. Together with our team of licensed civil, structural and mechanical engineers, we design highly-efficient access solutions with the safest and most advanced products in the industry. Supported by cutting-edge high-definition laser scanning equipment and state-of-the-art, 3-D Computer-Aided Design (CAD) and structural analysis software, we can engineer an access and scaffold solution that will provide a solid foundation for your project’s safety and success.

*“We have worked with Safway for many years in other areas of the country, (and we) trusted their engineering and judgment on this critical project.”*

*Martin Horgan,  
Regional Manager,  
Dunkin and Bush*

## Comprehensive Insulation Solutions

With highly trained, skilled craftspeople and over 20 years of experience, Safway delivers high-performance insulation solutions. In addition to a full range of insulation options, our comprehensive services include: metal sheeting; metal siding and roofing, fireproofing and customized insulation blankets.

## High-Quality Coatings

Safway also specializes in the application of high-quality coatings. Cultivated over years and across countless projects for some of the largest Fortune 500 companies, as well as numerous independents, we service large capital projects and implement long-term coatings programs, with carefully defined budgets, safety and quality targets. Our coatings products and services include:

- Surface Preparation
- Spray and Trowel-on Fireproofing
- Tank Coatings and Linings
- Coating Programs
- Industrial Painting
- Lead Abatement
- Floor Coating Systems

## Enhancing Productivity

Outstanding products and services, however, are only part of what Safway delivers. Our approach includes a commitment to increasing productivity. We examine every step in the process and focus closely on how we can save time and money to safely enhance productivity at the lowest total cost. This is why Safway is the industry leader in pay-for-performance contracting across North America.

## Better Project Management

In addition, Safway provides experienced, professional project managers and field supervisors to drive the schedule, and our exclusive web-based management tool, the Safway Tracking System (STS), gathers the necessary information to provide complete transparency. STS captures data and generates up-to-the-minute reports about your site's equipment,

labor, inspections and productivity. By using STS, we can stay on top of key performance indicators and can proactively manage budgets, inventory and schedules to maximize productivity.

## Local Resources

With more branch locations throughout North America, access to the largest inventory in the industry and locally-based crews, you can be assured that you will have what you need – when and where you need it. From rental to delivery, from assembly to disassembly, with localized branch management and expertise, and a single point of contact, you can be assured of easy, trouble-free access to equipment, labor, management and other resources throughout your project – and fast emergency response for any issues that may arise.

***“The QuikDeck® system was exactly what Pennecon needed for our project. The system allowed Pennecon to execute the work below the main deck and pontoon areas concurrently without impact to schedule or worry of dropped objects from above.”***

***Jerry Costello  
Project Manager,  
Pennecon Energy***

Even in the offshore and shipbuilding industry, no project is out of our reach. The products and services we offer include:

**SafScan™ HD Laser Surveying**

By delivering precise three-dimensional (3D) images of existing conditions at any offshore rig or platform, SafScan improves accuracy, productivity and safety.

**Systems™ Scaffold**

One of the most widely-used scaffold products in the United States, Systems Scaffold can be configured to fit almost any type of structure.

**QuikDeck® Suspended Access System**

An easy-to-install modular platform, QuikDeck® can be assembled from just a few basic components, configured to fit any shape or size, built in the air or on the ground, leapfrogged and relocated as work progresses.

**Personnel & Material Hoists**

With lifting speeds ranging up to 298-feet per minute, Safway's hoists can transport as much as 8,000 pounds vertically. A variety of configurations (including dual car capability on one fixed mast) and wide-opening gates ease the handling of large, heavy objects.

**Swing Stages**

Highly adaptable and easy to use, Swing Stages provide solutions for many hard-to-reach spaces.

**HAKI® Trusses & Protection Systems**

Safway is the primary North American supplier of HAKI trusses, designed to span large areas, and HAKI weather protection systems, which have numerous applications in the offshore and shipbuilding industry.

With more than 95 locations in the U.S. and Canada and a growing system of distributors worldwide, Safway Group companies deliver efficient, high-performance multiservice solutions – *The Smart Way* – by offering experience and expertise in access, scaffolding, insulation, fireproofing, surface preparation and coatings. Safway has been an industry leader since 1936.
