Part No. & Description	ADPL7H Ladder Hatch Deck, 7'
Weight	63.5 lbs.

Part No. & Description	ADPL10H Ladder Hatch Deck, 10'
Weight	73 lbs.

Safway's Ladder Hatch Deck (Photo 01) is designed for use on both Sectional and Systems™ scaffolds, replacing the previously supplied VAPB5412510 & VAPB5412507 hatch decks. The aluminum/ply-constructed deck comes in 7' and 10' lengths. Equipped with new features, this deck streamlines the erection process and improves worker safety. Patent pending.

Features and Benefits

- **Compatible:** works with both aluminum/ply and extruded aluminum decks & fillers
- **Adjustable:** access ladder adjusts to both Sectional Frame (6' 5") and Systems™ scaffolds (7' 0") heights
- **Increased capacity:** 25 pounds/square foot
- **Compact:** ladder nests between side rails when not in use for more headroom (Photo 02)
- **Convenient:** decks have 11½" landing on the hatch end, enabling placement of overlapped planks on both ends of hatch deck (Photo 03)
- **Durable:** one-piece extruded aluminum hatch deck hinge was designed for strength and durability (Photo 04)
